Outdoor Fireplaces are allowed and not regulated the same as open burning. There are many safety guidelines to follow for safe use.

1.) UL listed and approved apparatus - raised and closed flame by either masonry or covered heavy metal screening
2.) Clean dry wood only - no offensive smoke
3.) Intent of use is for visual effect & warmth not to burn yard waste
4.) 15’ minimum distance from combustible structure
5.) Do not burn on windy days
6.) Constantly attend
7.) Means to extinguish (Charged Hose or Fire Extinguisher)
8.) Extinguish completely when done
9.) No accelerants may be used
10.) It still may be ordered extinguished if deemed offensive by responding fire crew
